

## International Student Program Elementary School Placement Confirmation

Student Last Name: \_\_\_\_\_ First Name: \_\_\_\_\_

Date of Birth: \_\_\_\_\_ (MM/DD/YYYY)

The Burnaby School District welcomes international students into their elementary schools. As Burnaby is a wonderful place for families and the District is a well-recognized study destination, unfortunately space is very limited in our elementary schools.

We believe ALL our elementary schools offer a rewarding learning environment for students. As such, we ask that parents are flexible with their school placement.

I, \_\_\_\_\_, the parent of the above-named student understand and agree to the following conditions of my child's enrolment:

- School placement is based on availability of space in a grade within a school at the time of placement. This means that a school that was open at the time of application may no longer be available when placement is made due to increased local student enrollment.
- There is **NO** guarantee that I will be placed in one of my three requested schools.
- Housing arrangements should be made once my child's school placement has been confirmed, as transferring to another Burnaby elementary school may not be possible.
- School transfers are not permitted after the start of the student's school program for the current school year.
